

Better rules for a better environment

Make it Work aims at achieving a better environment by

- Sharing experiences on reforming and modernising environmental legislation and implementation practices at MS and EU level
- Establishing principles for smart drafting and application of key tools and procedures in EU environmental law
- Developing a better understanding of how different directives and regulations can work together effectively

1 Connect

Provide for smooth interaction between directives and regulations from different sectors.

- | | |
|------------------------------------|----------------------|
| ■ Horizontal (general) legislation | ■ Waste management |
| ■ Climate change | ■ Nature protection |
| ■ Air quality | ■ Chemicals and GMOs |
| ■ Water quality | ■ Noise |
| ■ Industrial pollution | |

2 Harmonise

Streamline and integrate frequently used key tools and procedures across the environmental acquis

3 Safeguards

Aim for more efficient and effective rules without lowering environmental protection standards
